Objective

To apply my expertise in full-stack development to contribute to a dynamic team, leveraging my skills in front-end and back-end technologies to deliver robust, scalable solutions. I aim to enhance efficiency and innovation within the organization, driving impactful results and fostering continuous improvement in software development practices

Skills

- HTML
- CSS
- JAVASCRIPT
- TAILWIND CSS
- REACT
- C

Projects

- Food Recipe Website - (2023)

Developed a comprehensive food recipe website using HTML, CSS, and JavaScript. To enhance page responsiveness and aesthetics, I integrated Bootstrap, ensuring a seamless user experience across devices.

<https://easy-to-cook.netlify.app/>

- Vehicle Rental Management System (2024)

Built a Vehicle Rental Management System with HTML, Bootstrap, and JavaScript. Users can rent vehicles for tours and pay securely via GPay, providing a smooth and user-friendly experience.

ROLE: My contribution to this project was designing the front-end for the rental services and testimonial page.

Work Experience(INTERN)

FEBRUARY -
APRIL
(2025)

KRIYAETIVE

Developed a dynamic login/signup page using Astro.js, ensuring seamless user interactions and intuitive UI/UX design. Assisted in debugging and optimizing code for enhanced performance and scalability, achieving improved page load times and responsiveness.

Education Background
